

# MILAN PRAJAPATI

## FRONTEND DEVELOPER

Madhyapurthimi-5, Bhaktapur +9779745661480 mln.praz12@gmail.com

---

### EXPERIENCE

#### FULLSTACK DEVELOPER INTERN | METALOGIC SOFTWARE

Apr 2024-Aug 2024

- Developed a Fullstack school website with a content management system (CMS), gaining experience in server-side rendering (SSR) and improving backend integration.
- Contributed to the Avikarta project, an insurance agent management platform, by designing and implementing key frontend and backend features.
- Built consultancy websites using modern web technologies such as Framer Motion, GSAP, and Shadcn, ensuring dynamic, interactive user experiences.

#### FRONTEND DEVELOPER INTERN | MINDRISERS TECH

Jan 2024-Mar 2024

- Architected and launched the company's first interactive website using Next.js and Framer Motion, creating a robust online presence and laying the groundwork for future scalability and performance optimization.
  - Collaborated with a cross-functional team to build a e-commerce platform for tea products using TypeScript and Next.js.
  - Developed reusable components to improve efficiency and maintainability across the website.
  - Implemented responsive designs and optimized the user interface using Tailwind CSS for consistent branding and smooth user experiences.
- 

### PROJECTS

#### CONSULTANCY STUDENT MANAGEMENT (FRONTEND)

<https://consultadvance.com>

<https://future-bridged.vercel.app>

- Developed a responsive frontend using Next.js, TypeScript, and Tailwind CSS, while utilizing React Query for data fetching and caching.
- Implemented form validation with React Hook Form and Zod, ensuring reliable input handling and error management.
- Managed application state with Redux Toolkit and created SVG animations for enhanced UI interactions.

#### HIGH SCHOOL WEBSITE & CMS

<https://singhadevimaviekatappa.edu.np>

- Built a Fullstack School Website with a CMS using Next.js and implemented server-side rendering (SSR) for improved performance and SEO.
- Developed a dynamic Content Management System (CMS) to allow real-time updates, along with API endpoints and a scalable database schema.
- Created a flexible backend to efficiently handle content changes and data, ensuring a seamless user experience.

## REAL-TIME CHAT APPLICATION

<https://new-chat-app-alpha.vercel.app>

- Developed a real-time chat application, enabling seamless communication between users.
- Implemented socket-based messaging functionality for instant updates.
- Designed an intuitive user interface with responsive design principles for optimal performance across devices.

## REAL ESTATE WEBSITE

<https://uptown-self.vercel.app>

- Designed and implemented a dynamic real estate website, showcasing properties with an intuitive user interface.
- Integrated search functionalities, ensuring a seamless user experience and incorporating responsive design principles for optimal performance across devices.
